CAPTAIN MELVIN MUSELES, MC, USN
Commanding Officer, Naval Regional Medical Center

CAPTAIN E. C. WOODLAND, DC, USN
Commanding Officer, Naval Regional Dental Center

CAPTAIN P. T. GILLCRIST
Commanding Officer, Naval Air Station, Cecil Field

CAPTAIN O. B. EMERINE, MC, USN
Senior Medical Officer, Branch Medical Clinic

CAPTAIN E. R. HUDSON, DC, USN
Senior Dental Officer, Branch Dental Clinic

The Naval Medical and Dental Clinic, Naval Air Station, Cecil Field, Florida, dedicated here today, is the culmination of four years of planning, design, and construction.

The one story, 44,000 square foot facility was designed by the Smith, Korach, Hayet, Haynie Partnership, Architects and Enigineers of Miami, Florida. Mr. Walt Hubbard was the project architect. The construction contract was awarded to the R. B. Gay Construction Company, Jacksonville, Florida on 19 June 1975. Construction commenced 30 June 1975 and was completed for beneficial occupancy on 1 October 1976. Contracts were administered and work supervised by the Commanding Officer, Southern Division, Naval Facilities Engineering Command, Charleston, South Carolina and Resident Officer In Charge of Construction, Jacksonville Area.

The Branch Medical Clinic functions under command of the Commanding Officer, Naval Regional Medical Center, Jacksonville, Florida and provides health care to active duty members, their dependents and other authorized beneficiaries as resources permit. The Medical Clinic has ten physician's offices with twenty examination rooms, a five bed short-term inpatient module, modern emergency room and ample supportive services.

The Branch Dental Clinic is under the command of the Commanding Officer, Naval Regional Dental Center, Jacksonville, Florida. The modern facilities include a four station rotator operator unit, five general dental operatories, special rooms for oral surgery, endodontics and periodontics and ample supportive services including panoramic x-ray capabilities. Additionally, a preventive dentistry and plaque control station, full prosthetic capability and adequate waiting area are provided. Dental care is provided to all active duty military members and other authorized beneficiaries within available resources.
